TURTLE TOP

VT3

The Turtle Top VT3 is established on the Ford Transit 3500 HD cutaway with gas or diesel options. The aerodynamic exterior and comfortable interior feature great driving visibility and sophisticated automotive styling. The extruded cage structure made of aircraft-grade 6360 aluminum provides superior strength. With improved fuel economy, this vehicle is a pleasure to drive down the road. The VT3 represents the state-of-the-art future of the shuttle bus industry.
