

ABC
COMPANIES

- (Contact Limitation & Eradication of Airborne Noxious Systems)
- 3 layers of passenger and driver protection
- Includes new & pre-owned coach and service offers

ABC CLEANS Products & Services

Interior sanitization/disinfection

HVAC Filter and UV Light Purification Systems

Contact partitions & passenger hygiene

Interior sanitization/disinfection

Electrostatic fogging of coach interior

- 99.994% Reduction in Virus Control
- EPA approved water-soluble disinfectant also used in commercial airlines
- Solution is electrically charged allowing uniform coating and “wraparound” distribution on surfaces
- Services conducted by ABC on site or at customer location

Cost: 45' / 35' / Double Deck

Interior sanitization/disinfection

RED ULV Fogger (U120)

- Electrically Charged Solution Allowing “Wraparound” Distribution on all Surfaces

- Droplet Size: 15-32 microns
- Solution Tank: 1.32 gallons
- Fogging Distance: 39 feet
- Shoulder Strap: 2” Wide
- Electric Motor: 100V. 700W, 38000rpm
- Flow Rate: 0-13.53 oz/min
- Hose Length: 20”
- Weight: 9.7lbs (with hose)
- Dimensions: 14” x 16” x 11” +hose

- Available From

| Part Number | Description | Price |
|-------------|-------------------------|----------|
| ABC-14677 | Sprayer, ULV – U120 Red | \$650.00 |

Interior sanitization/disinfection

BLUE ULV Fogger (U110)

- Electrically Charged Solution Allowing “Wraparound” Distribution on all Surfaces
 - Droplet Size: 15-25 microns
 - Solution Tank: 1.32 gallons
 - Fogging Distance: 39 feet
 - Shoulder Strap: 2” Wide
 - Electric Motor: 110V, 700W, 38000rpm
- Available From **ZERO HAZARD**
Safe Solutions, Naturally Inspired

| Part Number | Description | Price |
|-------------|--------------------------|----------|
| ABC-14676 | Sprayer, ULV – U110 Blue | \$650.00 |

Interior sanitization/disinfection

ZERO HAZARD Sanitizer

- FDA Approved, EPA Approval Pending, and Safe on All Forms of Transportation
- Revolutionary Sanitizing Solution with Active Ingredient HOCL Which is Non-Hazardous, has No Fragrance, and is Safe on All Surfaces (and Skin)
- Effective Against Pseudomonas Aeruginosa, Salmonella Enterica, Staphylococcus Aureus, Swine Influenza Virus (H1N1), Spores, Fungi, Algae, and Mold
- 1 Gallon will Sanitize Approximately 55 Motorcoaches and 100 Sedans/Vans/SUVs

| Part Number | Description | Price |
|-------------|-------------------------------|------------|
| ABC-14678 | Sanitizer, 250PPM (4) – 1 Gal | \$149.00 |
| ABC-14679 | Sanitizer, 250PPM (12) – 16oz | \$99.24 |
| ABC-14682 | Sanitizer, 250PPM (55 Gal) | \$1,320.00 |
| ABC-14717 | Sanitizer, 250PPM (275 Gal) | \$5,500.00 |

HVAC purification systems

Upgraded cabin filter system, MERV 15 (new and retro)

- 100% synthetic media is highly effective at removing 0.3 - 10.0 micron particles from the air stream
- Removes airborne pathogens, mold, and pollen from the airstream
- Resists moisture and microbial growth
- High dust loading for maximum service life while reducing airflow resistance
- Withstands prolonged exposure to high temperature, high humidity, and consistent UV exposure
- Can be installed in existing systems

Available Now (only for CX & TX Models)

| Part Number | Description |
|----------------|------------------------------|
| PN 11384473ABC | Filter, Evaporator – MERV 15 |

HVAC purification systems

UV light HVAC disinfection system (new and retro)

- Eliminates 90% of microbial contaminants after 10 minutes of exposure and 99% after 1 hour
- Reduces maintenance of HVAC system components
- UV Light installed within the HVAC System
- Can be installed in existing systems

Cost: \$2,399 installed / \$1,631 parts only (before taxes and fees)

Available: 6-8 weeks delivery. Back orders being taken and prioritized

Inactivation (sterilization) rates after 18000 hours

| Microorganism | Single Pass | | |
|-------------------|-------------|---------|-------------|
| | Minimum | Average | LOG Average |
| Coronavirus | 78.33% | 97.55% | 1 |
| Tuberculosis | 57.88% | 87.72% | 0 |
| Influenza A virus | 38.21% | 68.89% | 0 |
| Smallpox | 46.19% | 77.76% | 0 |

| Part Number | Description | Price |
|-------------------|-------------|------------------------------------|
| PN TUVC-BUS-246TF | Light, UV | \$815.30 each (2 per coach needed) |

HVAC purification systems

How UV Light Works

UV-C light produced by the Fresh-Aire UV System penetrates the cell walls of micro-organisms causing cellular damage, which kills them by preventing them from reproducing.

Coil with mold

Coil after UV light application

Simplified Maintenance

When UV-C lights are properly installed they can eliminate the need for coil and drain pan cleaning. Maintenance personnel are no longer exposed to disinfectants and other cleaning chemicals required for these tasks. Use of UV-C lights can result in a 99 percent reduction of the concentration of germs on irradiated surfaces within the A/C system

Advanced Power Supply

Our 24-30 VDC power supply utilizes a high frequency electronic ballast design for stable lamp operation and increased lamp life. The power supply is compact and easily mounts in the tight confines of the A/C Cabinet.

Teflon® Coated, Water-Resistant Lamps

The UV lamps are safety-coated with a Teflon® sleeve. They are water-resistant for mounting in wet locations such as the coil and drain pan. These TUVC-246 UV-C lamps incorporate a durable shielded design that provides longer lamp life in all conditions.

HVAC purification systems

UV Purifier Vent

- Installed directly in the passenger compartment
- Easy assembly/mounting
- Modular and completely autonomous operation
- Continuous operation while driving
- No distraction on the efficiency of an existing air conditioning system
- Long-lasting almost maintenance-free operation: lamp replacement only after approximately 12,000 operating hours

| Part Number | Description |
|-------------|---------------------------|
| ABC-17264 | UV-C Unit – 24V |
| ABC-17265 | UV-C Unit – 12V |
| ABC-17266 | Replacement Bulb, UVC LED |

HVAC purification systems

Bipolar Ionization

- Bipolar Ionization creates positive and negative oxygen ions to neutralize particulate matter
- Chemical free and can be used in the presence of passengers and staff
- Clinically proven effective at neutralizing particulate matter, bacteria, virus cells, odorous gases, aerosols, and VOCs
- Clinically tested and proven to neutralize MS2 Bacteriophage, a common surrogate for SARS-CoV-2 the virus causing COVID-19*
- Integrated in the HVAC system for superior distribution throughout the coach with no equipment present in the passenger cabin
- Can be run when the coach is in operation, eliminating any down-time or additional interruption of service
