

Service Bulletin No. 1040

For ABC staff only

MODEL	: T945 Shell
TYPE	: Service information
MANUAL & SECTION	: Operator's Guide Book M368 (Cummins) Operator's Guide Book M369 (Detroit Diesel) Maintenance Manual M377 (Cummins) Maintenance Manual M378 (Detroit Diesel)
DATE	: March 31 st , 2000
SUBJECT	: T945 Shell OGB and MM supplements
CONDITIONS	: Service information only.

DESCRIPTION:

The T945 Shell supplements have been released for distribution to end-users. Each supplement is divided into two parts : an OGB part and an MM part. The OGB part should be filed at the front of the standard M368 (Cummins) or M369 (Detroit Diesel) manual respectively, depending on the type of engine fitted to the vehicle. The MM part should be filed at the front of the standard M377 (Cummins) or M378 (Detroit Diesel) manual respectively, depending on the type of engine fitted to the vehicle.

This Bulletin is one of a special series, custom made for ABC/ICP and intended for internal use by these companies and their branches. Under no circumstances should information contained herein be made public or used to replace or supplement customer oriented information without prior consent by Van Hool.
